**Arkansas Secretary of State  
Report on Expenditure of Title II, Section 251 Funds  
October 2005 through September 2006**

As requested by the U.S. Election Assistance Commission, the following narrative report outlines expenditures and related activities conducted by the State of Arkansas during Federal fiscal year 2006 utilizing Title II, Section 251 funds.

During the 2006 Federal fiscal year, the State of Arkansas spent **\$10,790,994.90** in Title II funds to provide local election official training, to install a HAVA compliant statewide voting system, to complete installation of a HAVA compliant statewide voter registration system, to provide voter education, to improve the administration of federal elections and other activities to comply with the provisions of Title III of the Help America Vote Act.

**Elections Administration--\$35,376.26**

As noted in previous narrative reports, the Arkansas SOS sought and received approval from the State General Assembly for the establishment of four (4) additional positions in the SOS Elections Division to assist Arkansas's counties with the administration of HAVA. A small portion of Title II funds were used to pay salaries and associated matching costs for those positions during the reporting period. The positions include the following personnel: Two (2) Election Coordinators who assist counties with training and education related to the implementation of HAVA; one (1) programmer to support and assist with Arkansas's conversion to a HAVA compliant statewide voter registration list; and one (1) HAVA project manager to supervise the activities of all HAVA positions and HAVA related activities. Beginning July 1, 2007, these positions will be supported fully by state dollars.

**Statewide Voter Registration List--\$1,822,969.56**

The State expended Title II funds during this reporting period to continue the implementation of a statewide voter registration system pursuant to the requirements in Title III, Section 303 of the Help America Vote Act. Arkansas's Network of Voters in Arkansas (NOVA) is a uniform, centralized, interactive computerized statewide voter registration list administered by the Secretary of State and accessible in a real-time format by each of Arkansas's 75 county clerks.

The State spent Title II funds for system design, project management, data conversion and testing, data cleansing, user acceptance testing, state agency data sharing, performance and load testing and training for local election officials on use of the new system. Arkansas's 75 counties were "live" on the NOVA system by December 31, 2005.

Title II funds were also used fund an agreement in the amount of \$22,173.75 between the Arkansas SOS and the American Association of Motor Vehicle Administrators to share

data with the state's department of motor vehicles for the purposes of verifying driver's license and social security administration data.

**Voting System: Implementation--\$8,462,644.72<sup>1</sup>**

Consistent with Title III, Section 301 of the Help America Vote Act, the State of Arkansas expended Title II funds for the purchase of HAVA compliant voting machines, election programming and reporting software, associated peripheral devices, project management and testing services and training for local election officials. The state purchased laptop computers for use by county election commissions in tabulating and reporting election results and incurred associated expenses for hardware, data processing supplies, software and licensing. Additional expenses under this category included paper rolls for communication packs and RTAL devices.

The state allowed each county to select from one of three (3) HAVA compliant voting system options and to take advantage of contract pricing in an agreement negotiated by the state. In some cases, Arkansas counties chose to supplement available state and federal dollars with local funds to fully implement the voting system solution of their choice.

**Voting System: Voter Education & Training--\$470,004.36**

The State of Arkansas expended Title II funds for public service announcements related to new voting equipment in use in Arkansas's counties for the 2006 Election Cycle. Television and radio ads explained how to use the voting machines and how the machines were accessible for individuals with disabilities. The newspaper ads illustrated the use of the machines in each county specific to the type of equipment the county chose (i.e., optical scan plus DRE or full DRE).

Other expenses include printed posters to satisfy the requirement of Title III, Section 302 of the Help America Vote Act, to educate voters about the ability to cast a provisional ballot, information about the election and the voter's rights under the law. Other printed materials included instructions notifying voters in central count optical scan counties of the effect of casting multiple votes for office and instructions on how to correct the ballot before it is cast and counted. Local funds were expended to place this informational material on the voter's ballot as well, consistent with the requirement of Title III, Section 301(B) of the Help America Vote Act.

Travel and subsistence costs for training local election officials are also included under this category.

Please refer to page 13 of the Arkansas State Plan for a description of Arkansas's Title II Budget.

---

<sup>1</sup> Expenditures noted include program management and consulting fees associated with planning and installation of a statewide voting system. For reference purposes, those Title II funds are classified under the "Other Activities" portion of the Title II budget outlined in the State Plan.
